HYDROBIOLOGIA
Volume 437, 15 October 2000

From triphenyltins to integrated management of the 'pest' snail *Cerithidea cingulata* in mangrove-derived milkfish ponds in the Philippines
T. Bagarinao, I. Lantin-Olaguer 1–16

Analysis of *Kozhowia* Vasiljeva & Smirnov, 1969 (Chydoridae, Anomopoda, Branchiopoda), with a description of *Parakozhowia* n. gen.
Alexey A. Kotov 17–56

Influence of hydrological seasonality on bacterioplankton in two neotropical floodplain lakes
María M. Castillo 57–69

The zooplankton and other limnological features of a humic coastal lagoon (Lagoa Comprida, Macé, R.J.) in Brazil
Christina W. C. Branco, Francisco de A. Esteves, Betina Kozlowsky-Suzuki 71–81

Biofilms as food for decapods (Atyidae, Palaemonidae) in the River Murray, South Australia
Adrienne Burns, Keith F. Walker 83–90

Life cycle and production of *Campsurus notatus* (Ephemeroptera, Polymitarcyidae) in an Amazonian lake impacted by bauxite tailings (Pará, Brazil)
João José Fonseca Leal, Francisco de Assis Esteves 91–99

Planktivory by bluegill (*Lepomis macrochirus*) on *Leptodora kindti* in a small North American lake
Donn K. Branstrator, Carolyn M. Holl 101–106

Life history adaptation of *Tanymastix stagnalis* (Crustacea, Branchiopoda) to habitat characteristics
Graziella Mura, Paola Zarattini 107–119

Microbiological and environmental variables involved in the sulfide buffering capacity along a eutrophication gradient in a coastal lagoon (Bassin d'Arcachon, France)
Sander K. Heijs, Hans van Gemerden 121–131

A routine method of DNA-extraction from extremely small metazoans, e.g. single rotifer specimens for RAPD-PCR analyses
Christine Leutbecher 133–137

Salt pollution in a Japanese stream and its effects on water chemistry and epilithic algal chlorophyll-*a*
E. I. L. Silva, A. Shimizu, H. Matsunami 139–148

High aquatic niche overlap in the newts *Triturus cristatus* and *T. marmoratus* (Amphibia, Urodela)
Robert Jehle, Pieter Bouma, Marc Sztatecsny, J.W. Arntzen 149–155

Energy exploitation in *Chirocephalus croaticus* (Steuer, 1899) (Crustacea: Anostraca): survival strategy in an intermittent lake
Tatjana Simčič, Anton Brancelj 157–163

Benthic community metabolism in three habitats in an Ozark stream
Gregory W. Whitledge, Charles F. Rabeni 165–170

Microbial mats of twenty-six lakes from Potter Peninsula, King George Island, Antarctica
Alicia Vinocur, Haydée Pizarro 171–185

Effects of acidic pH and phytoplankton on survival and condition of *Bosmina longirostris* and *Daphnia pulex*
Andrea Locke, W. Gary Sprules 187–196

Postembryonal development of male and abnormal sexual individuals of *Alona affinis* (Leydig, 1860) (Anomopoda, Chydoridae)
Artem Y. Sinev 197–202

Mobiline peritrich riders on Australian calanoid copepods
John D. Green, Russell J. Shiel 203–212

Active uptake of aluminium, copper and manganese by the freshwater amphipod *Paramelita nigroculus* in acidic waters
D. E. Musibono, J. A. Day 213–219

Feeding ecology of the Pacific Golden Plover (*Pluvialis fulva*) in the Sg. Labu River on the west coast of the Malay Peninsula
Kazuaki Kato, Koji Omori, Masaaki Yoneda 221–233

***Parastenocaris andreji* n. sp. (Crustacea; Copepoda) – the first record of the genus in Slovenia (SE Europe)**
Anton Brancelj 235–239

Book reviews 241–248
